PROFESSIONAL SUMMARY

Backend-focused SDE with 5 years of experience building and scaling cloud-native SaaS systems. Skilled in designing high-throughput, low-latency architectures with a focus on reliability, performance, and cost efficiency.

WORK HISTORY

SysCloud - **Senior Software Engineer**
Hyderabad, India
05/2023 - Current
RDS to S3 Table Migration

- Co-architected migration of billions of rows from PostgreSQL (RDS) to S3 (Apache Iceberg + Athena), driving significant cost reduction at petabyte scale.
- Designed a 3-phase state-machine architecture in backend systems to dynamically route writes between RDS and S3, enabling zero-downtime migration; implemented DynamoDB caching to reduce database load by 40%.

Claude Debugger Agent

- Built an AI-powered debugging agent using Claude subagent, with Azure DevOps, Kibana, and DB integrations for automated root-cause analysis.
- Leveraged chain-of-thought prompt engineering to achieve 85%+ accuracy in fix recommendations, significantly reducing manual triage effort.

Backup Failure Classification & Observability

- Led a cross-functional initiative to expand failure classification from 350 to 2,957 error codes, improving self-service, and reducing support escalations.
- Built retry history tracking and standardized status models, enabling clearer diagnostics, and more actionable failure insights.

SysCloud - **Software Engineer**
Hyderabad, India
05/2021 - 04/2023

- Microservices Transition: Contributed to the decomposition of a legacy PHP monolith into scalable microservices, improving maintainability, and accelerating deployment frequency.

SKILLS

Languages: PHP **,** TypeScript, JavaScript, Python

Frameworks: NestJS, Node.js

Cloud: AWS (EC2, SQS, FSx, S3, Lambda, API Gateway, Route53)

Databases: PostgreSQL, DynamoDB, Redis, Athena

Containers: Docker, AWS ECS/Fargate

DevOps & CI/CD: Git, AWS CodeCommit, CodePipeline

Monitoring & Logging: Grafana, ELK, CloudWatch

AI & Automation: Claude, MCP, Langflow

CERTIFICATIONS

Amazon Web Services Certified Solutions Architect - Associate
12/2021

EDUCATION

05/2025
BITS Pilani, Work Integrated Learning Program
Hyderabad, India

Master of Technology: Cloud Computing

05/2021
Lovely Professional University
Phagwara, India

Bachelor of Technology: Computer Science
